# MARMOLA

by **BRUMMEL CUCINE**

MARMOLA is a contemporary-styled kitchen that combines functionality with elegant aesthetic solutions. Featuring a white gypsum opaque and lacquered finish, the kitchen's door and hood panels can be customised by adding panels with different finishes such as wallpaper and leather. Spectacular and bright, the island is the kitchen's visual and functional heart. It contains a hob, sink, and draft for beers and drinks. The hood, which is placed over the kitchen island, opens by touching a remote control and offers compartments containing drainer, glass-holder, and shelves.
