BRUMMEL OPERA 30

Brummel is 30 years old, Opera 30 has arrived

The pearly white and steel kitchen today gets a new look: the clear, square lines play with the imposing and luxurious structure. A subtle balance of modernity and luxury that allows the luminous reflections to astound and fascinate.

The multiple mechanisms make the kitchen decidedly functional: the ventilation hood becomes a light, crockery cupboard and/or TV support ;the counter-top of the island lifts up leaving space for a glass cupboard. The drawers respond to the simple touch of a finger and can be completed with various, efficient accessory-holders.

Everything is coordinated with the paneling that, in addition to practicality, gives the kitchen identity and prestige.
